What this standard covers

This standard specifies the terms and definitions, specifications, classification and marking of foam concrete wall panels and roofing sheets, raw materials, technical requirements, test methods, inspection rules and marking, packaging, transportation and storage. This standard applies to industrial and civil building roofing panels and foam concrete wall panels for non-load-bearing walls, not for high-rise building exterior walls.

Document data

Chinese classification (CCS): Q14.

Estimated length of the Chinese original: 13,146 words.
