1 Foreword

JC/T 2481-2018 was issued by Ministry of Industry and Information Technology on 22 October 2018 and has been in force since 1 April 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 6 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, classification and marking, requirements, test methods, inspection rules, product specifications, packaging, delivery, transportation and storage of concrete slump retention agents. This standard applies to slump retention agents for cement concrete.

JC/T 2481-2018 is filed under Chinese Standard Classification Q 12, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
