1 Foreword

JC/T 2483-2018 was issued by Ministry of Industry and Information Technology on 22 October 2018 and has been in force since 1 April 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, specifications, grades and markings, general provisions, technical requirements, test methods, inspection rules, product certification, stacking and transportation of foam concrete core-filled blocks. This standard applies to foam concrete core blocks for industrial and civil construction.

JC/T 2483-2018 is filed under Chinese Standard Classification Q 11, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
