1 Foreword

JC/T 2488-2018 was issued by Ministry of Industry and Information Technology on 22 October 2018 and has been in force since 1 April 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, classification and marking, requirements, sample preparation, test methods, inspection rules, marking, packaging, transportation and storage of cement for industrial microcrystalline plates. This standard is applicable to cement for industrial microcrystalline plate, and the wear-resistant ceramic and cast stone paste can be used for reference.

JC/T 2488-2018 is filed under Chinese Standard Classification Q 37, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 9,986 characters

4 Related standards

Standards on related subjects:

GB/T 36403-2018 - Test methods of infrared transmittance for infrared optical glass-Fourier transform method

GB/T 36265-2018 - Infrared optical glass

GB 18045-2000 - Safety glass for railway rolling stock

JC/T 2920-2025 - Synthetic silica glass deposition tube for optical fiber preform

JC/T 2393-2017 - UV-protective flat glass

JC/T 2283-2014 - Slag glass-ceramics pipes

5 Classification and status

Chinese Standard Classification (CCS): Q 37

Prefix JC/T: recommended standard.
