1 Foreword

JC/T 2505-2019 was issued by Ministry of Industry and Information Technology on 2 May 2019 and has been in force since 1 November 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, classification, codes, specifications and markings, raw materials, construction, technical requirements, test methods, inspection rules and product certificates, markings, transportation and storage of prefabricated

concrete floor slabs for prefabricated buildings. This standard is applicable to precast concrete floor slabs for industrial and civil prefabricated buildings, mainly including precast concrete solid base plates with truss bars for laminated slabs, precast concrete slabs with infill for multi-rib floors, prestressed concrete double T slabs and multi-rib floors Cover with precast concrete cavity elements. Other types of precast concrete floor slabs may refer to this standard.

JC/T 2505-2019 falls under ICS 91.100.30, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Sector: Building Materials Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages (approximate)

Chinese original: about 12,188 characters

4 Related standards

Standards on related subjects:
