1 Foreword

JC/T 2506-2019 was issued by Ministry of Industry and Information Technology on 2 May 2019 and has been in force since 1 November 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 13 pages in English translation.

2 Scope Preview

This standard specifies the classification and marking, raw materials, structural requirements, quality requirements, inspection methods, inspection rules, product qualification certificates and markings, transportation, and hoisting and storage, etc. This

standard applies to small box beams used in bridge construction of highways, water transportation and municipal engineering.

JC/T 2506-2019 falls under ICS 91.100.30, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Sector: Building Materials Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 13 pages (approximate)

Chinese original: about 20,228 characters

4 Related standards

Standards on related subjects:

JC/T 746-2007 - Concrete tiles

TB/T 2922.5-2002 - Railway Concrete Accelerated Mortar Bar aggregate alkali reactivity test methods for

JC/T 2509-2019 - Fireproofing board for container house

JC/T 2505-2019 - Fabricated buildings-Precast concrete floor slabs

JC/T 2504-2019 - Fabricated building-Precast concrete sandwich wall panel

5 Classification and status

International classification (ICS): 91.100.30

Chinese Standard Classification (CCS): Q 14

Prefix JC/T: recommended standard.
