1 Foreword

JC/T 2536-2019 was issued by Ministry of Industry and Information Technology on 2 August 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, classification and marking, general requirements, technical requirements, test methods, inspection rules, marking, packaging, transportation and storage of cement-water glass grouting materials. This standard is

https://chinastandards.org/standards/jc-t-2536-2019

applicable to cement-water glass grouting materials used in water conservancy and hydropower, mining, transportation, industrial and civil construction and other fields.

JC/T 2536-2019 falls under ICS 91.100.50, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 11,193 characters

4 Related standards

Standards on related subjects:

GB/T 13477.11-2017 - Test method for building sealants -- Part 11: Determination of tensile properties at maintained extension after immersion in water

GB/T 13477.10-2017 - Test method for building sealants - Part 10: Determination of tensile properties at manitained extension

JC/T 936-2004 - [JC/T 936-2004] One-component polyurethane foam

JC/T 2235-2025 - Silicious protector for concrete

JC/T 2800-2024 - Green factory evaluation requirements for building sealant industry

JC/T 2560-2020 - Corner sealant for building doors and windows

5 Classification and status

International classification (ICS): 91.100.50

Chinese Standard Classification (CCS): Q 24

Prefix JC/T: recommended standard.
