1 Foreword

JC/T 2556-2020 was issued by Ministry of Industry and Information Technology on 16 April 2020 and has been in force since 1 October 2020.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the determination method of vinyl acetate (VA) content in ethylene-vinyl acetate copolymer (EVA) modified waterproof board, secondary distillation-hydrolysis back titration method and infrared spectroscopy. The secondary distillation-hydrolysis back titration method specified in this standard is suitable for EVA waterproof board with VA content between 1% and 14%, but not for ECB waterproof board. Infrared spectroscopy specified in this standard is applicable to EVA waterproof board and ECB waterproof board with VA content between 3% and 14%. When the double distillation-hydrolysis back titration method and the infrared spectroscopy method are applicable at the same time, the double distillation-hydrolysis back titration method is the arbitration method.

JC/T 2556-2020 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,909 other JC/T standards.

Of the 978 JC/T standards that do carry an ICS number, 580 (59%) fall under ICS 91, in the field of construction materials and building.

3 About this standard

Sector: Building Materials Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages (approximate)

Chinese original: about 10,195 characters

4 Related standards

Standards on related subjects:

JB 2293-1978 - Wind tunnel test method of radiator of automobile and tractor

JC/T 2562-2020 - Guidelines for the evaluation of green factories in the cement industry

JC/T 2559-2020 - Adhesive and plastering mortar for external insulation system of rock wool exterior wall

JC/T 2558-2020 - Pervious concrete

5 Classification and status

Prefix JC/T: recommended standard.
