1 Foreword

JC/T 2712-2022 was issued by Ministry of Industry and Information Technology on 30 September 2022 and has been in force since 1 April 2023.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 11 pages in English translation.

2 Scope Preview

This standard specifies the classification, model and specification parameters, technical requirements, test methods, inspection rules, signs, packaging, transportation and storage of precast concrete box culvert forming molds. This standard is applicable to molds for single or multi-chamber precast concrete box culverts required for forming urban comprehensive pipe corridors, cable tunnels, water storage tanks, underground passages and drainage and other underground pipe network projects. The production of box culvert molds for other purposes can refer to this standard.

JC/T 2712-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,909 other JC/T standards.

Of the 978 JC/T standards that do carry an ICS number, 580 (59%) fall under ICS 91, in the field of construction materials and building.
