1 Foreword

JC/T 2753-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 36 pages in English translation.

2 Scope Preview

This standard specifies the classification principles and methods, coding principles and methods, and classification codes for the classification and coding of materials in the cement industry. This standard applies to cement enterprise industrial material information

collection, information classification, information processing, information exchange and material organization.

JC/T 2753-2023 falls under ICS 91.100.01, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 36 pages

Chinese original: about 54,592 characters

4 Related standards

Standards on related subjects:

GB/T 35843-2018 - Test method of fiber content of fiber reinforced concrete and its product

JG/T 481-2015 - Water-based interior wall coating with low-emission volatile organic compounds (VOC)

JC/T 694-2008 - Packaging for sanitary wares

JC/T 2947-2025 - Maturity assessment of digital transformation for building materials industry

JC/T 2829-2024 - Cement burning system? Balance,? Efficiency calculation method

JC/T 2540-2019 - Floor material terms and definitions

5 Classification and status

International classification (ICS): 91.100.01

Chinese Standard Classification (CCS): Q 04

Prefix JC/T: recommended standard.
