1 Foreword

JC/T 2759-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the requirements, test methods, inspection rules, markings and instructions, as well as transportation, storage and ordering of ceramic water storage materials. This standard applies to ceramic water storage materials used in sidewalks,

green belts, plant planting areas, soil modification areas and other areas that require water retention and related to sponge city construction.

JC/T 2759-2023 falls under ICS 91.100.25, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 10,120 characters

4 Related standards

Standards on related subjects:
