1 Foreword

JC/T 2771-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 October 2024.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 12 pages in English translation.

2 Scope Preview

This standard specifies the guidance and suggestions for cement production enterprises to apply energy-saving technologies, including general principles, process energy-saving technologies, equipment energy-saving technologies, power supply and distribution system

and process control energy-saving technologies, and management energy-saving technologies. This standard is applicable to the optimization of energy-saving technologies for silicate cement clinker, cement and cement grinding production enterprises, and provides reference information such as energy-saving technical indicators, carbon emissions, and energy-saving effects.

JC/T 2771-2024 falls under ICS 91.100.10, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 12 pages

Chinese original: about 18,125 characters

4 Related standards

Standards on related subjects:

GB/T 2015-2017 - White Portland cement

GB/T 3183-2017 - Masonry cement

JC/T 1088-2008 - Methods for chemical analysis of granulated electric furnace phosphorous slag

JC/T 2894-2025 - Granulated carbon chromium iron slag powder for cement and concrete

JC/T 2856-2024 - Terminology of gypsum and gypsum products

JC/T 2850-2024 - Test method for determining interfacial bonding strength of 3D printed cement-based materials

5 Classification and status

International classification (ICS): 91.100.10

Chinese Standard Classification (CCS): Q 11

Prefix JC/T: recommended standard.
