1 Foreword

JC/T 2786-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the structure, model and basic parameters, technical requirements, test methods, inspection rules and markings, packaging, transportation and storage of V-shaped static powder separators for the cement industry. This standard is applicable to

the powder separators for materials crushed by air separation roller presses or vertical roller mills in the cement industry. Pulverized coal preparation and sand making powder separators can be implemented as a reference.

JC/T 2786-2023 falls under ICS 91.110, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 11,169 characters

4 Related standards

Standards on related subjects:

JC/T 2874-2025 - Automatic bag placer for cement industry

JC/T 2873-2025 - Cement filling machine for FIBC

5 Classification and status

International classification (ICS): 91.110

Chinese Standard Classification (CCS): Q 92

Prefix JC/T: recommended standard.
