1 Foreword

JC/T 2806-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 July 2025.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general principles, evaluation requirements, evaluation methods and procedures, judgments and evaluation reports for the evaluation of green factories in the flooring industry. This standard applies to the creation and evaluation of green factories

of flooring material manufacturers.

JC/T 2806-2024 falls under ICS 91.100.50, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Sector: Building Materials Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 17748-2016 - Aluminium-plastic composite panels for curtain walls

GB/T 9780-2013 - Test method for dirt pickup resistance and stain remvoal of film of architectural coatings and paint

JG/T 169-2005 - Light weight panels for partition walls used in buildings

JC/T 2111-2025 - Test method for the thermal storage performance of phase change materials for building applications

JC/T 2079-2025 - Elastomeric stucco for building

JC/T 2804-2024 - Green factory evaluation requirements for diatom mud decorative wall materials industry

5 Classification and status

International classification (ICS): 91.100.50

Chinese Standard Classification (CCS): Q 18

Prefix JC/T: recommended standard.
