1 Foreword

JC/T 2819-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 July 2025.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general principles of energy-saving technologies for glass fiber production enterprises, process energy-saving technologies, equipment energy-saving technologies, power supply and distribution system and process control energy-saving

technologies and comprehensive energy management. This standard applies to the application of energy-saving technologies in glass fiber production enterprises.

JC/T 2819-2024 falls under ICS 91.100.99, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Sector: Building Materials Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 7690.5-2013 - Reinforcements -- Test method for yarns -- Part 5: Determination of fiber diameter for glass fiber

GB/T 7689.5-2013 - Reinforcements -- Test method for woven fabrics -- Part 5: Determination of glass fibre tensile breaking force and elongation at break

GB/T 6006.2-2013 - Test method for glass mats -- Part 2: Determination of tensile breaking force

JC/T 2335-2025 - Fiberglass backing plate

JC/T 2847-2024 - Fiberglass mesh gypsum board

5 Classification and status

International classification (ICS): 91.100.99

Chinese Standard Classification (CCS): Q 36

Prefix JC/T: recommended standard.
