1 Foreword

JC/T 2861-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 May 2025.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the general principles, overall objectives, work procedures, basic investigation and problem identification, preparation of restoration plans, implementation of plans, monitoring, management and effectiveness evaluation of asbestos mine remediation. This standard is applicable to the remediation of waste asbestos mines after the mining and beneficiation activities are completed. It can be used as a reference for the remediation of asbestos mines during the mining and beneficiation process.

JC/T 2861-2024 falls under ICS 73.080, in the field of mining and minerals.

This catalogue holds 58 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
