1 Foreword

JC/T 2896-2025 was issued by Ministry of Industry and Information Technology on 10 April 2025 and has been in force since 1 November 2025.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the composition and basic parameters, technical requirements, safety and environmental protection, installation and acceptance, commissioning and performance testing, and delivery documents of external circulation vertical roller mill

grinding systems for the cement industry. This document applies to the design, manufacture, and acceptance of external circulation vertical roller mill grinding systems for preparing raw materials and cement.

JC/T 2896-2025 falls under ICS 91.11, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages

Chinese original: about 12,125 characters

4 Related standards

Standards on related subjects:

JC/T 2874-2025 - Automatic bag placer for cement industry

JC/T 2873-2025 - Cement filling machine for FIBC

5 Classification and status

International classification (ICS): 91.11

Chinese Standard Classification (CCS): Q 92

Prefix JC/T: recommended standard.
