## 1 Foreword

JC/T 2911-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 March 2026.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 23 pages in English translation.

## 2 Scope Preview

This standard specifies the method summary, reagents and materials, instruments and equipment, sample conditioning, test procedures, result expression, precision, and test report for the determination of acetone extract from friction powder. This document applies to friction powder used in the production of friction materials.

JC/T 2911-2025 falls under ICS 83.080.20, in the field of rubber and plastics industries.

This catalogue holds 25 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

## 3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 23 pages

Chinese original: about 34,352 characters

## 4 Related standards

Standards on related subjects:

GB/T 23263-2024 - Determination of asbestos in products

JC/T 2625-2021 - Titanium gypsum

GB/T 28628-2012 - Test method for air ion concentration of materials

## 5 Classification and status

International classification (ICS): 83.080.20

Chinese Standard Classification (CCS): Q 69

Prefix JC/T: recommended standard.
