Foreword

JC/T 2967-2026 is a recommended industry standard of the People's Republic of China in the Building Materials sector, approved and issued by the Ministry of Industry and Information Technology on 18 March 2026, with effect from 1 September 2026.

It is administered by the Building Materials Industry Comprehensive Technical Committee for Standardization.

Classification: ICS 91.100.10; CCS Q62.

1 Scope

JC/T 2967-2026 specifies the classification and marking, technical requirements, test methods, inspection rules, packaging, labelling, transport and storage of fluorine gypsum. The document applies to fluorine gypsum as a product. It sets out how the material is divided into types and designated, how it is to be tested and inspected, and how it is to be packed, marked, moved and kept so that it can be traded and used under a common description.

Producers of fluorine gypsum, manufacturers who use it as a raw material, testing laboratories and buyers can use the document when agreeing on the quality of a delivery. It is a voluntary industry standard (code with /T), approved by the Ministry of Industry and Information Technology and prepared under the Building Materials Industry Comprehensive Technical Committee for Standardization. It was issued on 18 March 2026 and takes effect on 1 September 2026. The text is meant to give producers and buyers one shared description of the material.
