1 Foreword

JC/T 440-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

2 Scope

This standard specifies methods for the determination of loss on ignition, silica, aluminum oxide, ferric oxide, titanium dioxide, calcium oxide, magnesium oxide, potassium oxide and sodium oxide of dolomite used in the glass industry. This standard is applicable to the chemical composition analysis of dolomite used for flat glass, and is not applicable to the chemical composition analysis of dolomite with a ferric oxide content of less than 0.05%.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 17 pages

Chinese original: about 25,269 characters

4 Classification and status

International classification (ICS): 81.040

Chinese Standard Classification (CCS): Q 34

Prefix JC/T: recommended standard.
