1 Foreword

JC/T 545-2020 was issued by Ministry of Industry and Information Technology on 16 April 2020 and has been in force since 1 October 2020.

2 Scope

This standard specifies the terms and definitions of energy balance, energy balance model, energy balance principle, statistical test and calculation of energy balance, indicators of energy balance, and energy balance report for glass fiber enterprises. This standard is applicable to enterprises producing continuous glass fiber by the kiln method and independent energy-consuming units within the enterprise.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 10 pages

Chinese original: about 15,122 characters

4 Classification and status

International classification (ICS): 27.010

Chinese Standard Classification (CCS): F 01

Prefix JC/T: recommended standard.
