1 Foreword

JC/T 60003-2019 was issued by Ministry of Industry and Information Technology on 2 August 2019.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 18 pages in English translation.

2 Scope Preview

This standard is applicable to the professional construction and acceptance of wear-resistant or wear-resistant and anti-corrosion surface layers mainly composed of microcrystalline plates in the wear-resistant and wear-resistant and corrosion-resistant

industrial facility engineering.

JC/T 60003-2019 falls under ICS 91.200, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 18 pages

Chinese original: about 27,253 characters

4 Related standards

Standards on related subjects:

GB 50168-2018 - Standard for construction and acceptance of cable line electric equipment installation engineering

GB 50303-2015 - Code for Acceptance of Construction Quality of Building Electrical Engineering

GB 50461-2008 - Code for quality acceptance of static equipment installation in petrochemical engineering

5 Classification and status

International classification (ICS): 91.200

Chinese Standard Classification (CCS): P 90

Prefix JC/T: recommended standard.
