1 Foreword

JC/T 60007-2022 was issued by Ministry of Industry and Information Technology on 8 April 2022 and has been in force since 1 October 2022.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, technical requirements, formaldehyde emission characteristics test, calculation of indoor formaldehyde concentration prediction value, and test report for the use of formaldehyde-emitting materials for interior decoration of buildings. This standard applies to the requirements for the use of interior decoration materials and products that emit formaldehyde in civil construction projects.

JC/T 60007-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,909 other JC/T standards.

Of the 978 JC/T standards that do carry an ICS number, 580 (59%) fall under ICS 91, in the field of construction materials and building.
