Table of Contents

1 General provisions
2 Terms
2.0.1 Repairing mortar
2.0.2 Substrate treatment
2.0.3 Reinforcement treatment
3 Materials
3.1 General requirements
3.2 Performance requirements of repairing mortar
3.3 Supporting materials
4 Damage investigation and repair plan
4.1 Damage investigation
4.2 Repair plan
5 Construction of repairing mortar
5.1 General requirements
5.2 Construction of surface modification repairing mortar
5.3 Construction of structural reinforcement repairing mortar
6 Inspection and acceptance
6.1 Material incoming inspection
6.2 Construction acceptance
6.3 Acceptance

1 Foreword

JC/T 60010-2022 was issued by Ministry of Industry and Information Technology on 8 April 2022 and has been in force since 1 October 2022.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 17 pages in English translation.

2 Scope Preview

This standard specifies the materials, damage investigation and repair plan, construction, inspection and acceptance of repair mortar. This standard is applicable to the construction, inspection and acceptance of repair mortar for repairing and strengthening concrete structures of existing buildings and structures.

JC/T 60010-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,909 other JC/T standards.

Of the 978 JC/T standards that do carry an ICS number, 580 (59%) fall under ICS 91, in the field of construction materials and building.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 17 pages

Chinese original: about 26,285 characters

4 Related standards

Standards on related subjects:

JC/T 2559-2020 - Adhesive and plastering mortar for external insulation system of rock wool exterior wall

JC/T 2558-2020 - Pervious concrete

JC/T 2556-2020 - Method for determination of vinyl acetate content in ethylene-vinyl acetate copolymer modified waterproof board

5 Classification and status

Prefix JC/T: recommended standard.
