1 Foreword

JC/T 60012-2022 was issued by Ministry of Industry and Information Technology on 30 September 2022 and has been in force since 1 April 2023.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 23 pages in English translation.

2 Scope Preview

This standard specifies the terminology, materials, design, construction and quality acceptance of quick-setting walls constructed by integral spraying of shaped steel grids. This standard is applicable to the design, construction and quality acceptance of non-load-bearing walls in general industrial and civil buildings of seven stories or below with integrally sprayed-on quick-setting walls of profiled steel grids.

JC/T 60012-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,909 other JC/T standards.

Of the 978 JC/T standards that do carry an ICS number, 580 (59%) fall under ICS 91, in the field of construction materials and building.
