## 1 Foreword

JC/T 60016-2022 was issued by Ministry of Industry and Information Technology on 30 September 2022 and has been in force since 1 April 2023.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 33 pages in English translation.

## 2 Scope Preview

This standard specifies the terms, basic standards, technical requirements, design, construction, and acceptance of non-demolition composite thermal insulation formwork for buildings. This standard is applicable to the design, construction and acceptance of cast-in-situ concrete structure civil buildings with non-demolition-free composite thermal insulation formwork in areas with seismic fortification intensity of 8 degrees and below. For housing projects using non-demolition-free composite thermal insulation formwork, the application height of the formwork for the exterior wall of the building should not exceed 100m.

JC/T 60016-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,909 other JC/T standards.

Of the 978 JC/T standards that do carry an ICS number, 580 (59%) fall under ICS 91, in the

field of construction materials and building.

## 3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 33 pages

Chinese original: about 49,423 characters

## 4 Related standards

Standards on related subjects:

JC/T 2559-2020 - Adhesive and plastering mortar for external insulation system of rock wool exterior wall

JC/T 2558-2020 - Pervious concrete

JC/T 2556-2020 - Method for determination of vinyl acetate content in ethylene-vinyl acetate copolymer modified waterproof board

## 5 Classification and status

Prefix JC/T: recommended standard.
