1 Foreword

JC/T 60026-2025 was issued by Ministry of Industry and Information Technology on 10 April 2025 and has been in force since 1 November 2025.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 28 pages in English translation.

2 Scope Preview

This standard specifies the general principles, terminology, technical requirements, construction requirements, mechanical fixing methods, bonding methods, pressing methods, detailed construction, quality inspection, and finished product protection for the

application of single-layer waterproof membranes for roofing. This document applies to the design, construction, quality inspection, and finished product protection when using single-layer waterproof membranes as the waterproof layer in building roofing projects.

JC/T 60026-2025 falls under ICS 91.120.30, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 28 pages

Chinese original: about 42,497 characters

4 Related standards

Standards on related subjects:

GB/T 41078-2021 - Test methods for harmful substances in building waterproofing materials

GB/T 36584-2018 - Test methods for roofing tiles

JC/T 2428-2017 - Non-curable rubber modified asphalt coating for waterproofing

JC/T 1018-2020 - Water-permeable inorganic waterproofing agent

JC/T 1017-2020 - Polymer Emulsion for Building Waterproof Material

5 Classification and status

International classification (ICS): 91.120.30

Chinese Standard Classification (CCS): Q 17

Prefix JC/T: recommended standard.
