1 Foreword

JC/T 60030-2025 was issued by Ministry of Industry and Information Technology on 10 April 2025 and has been in force since 1 November 2025.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 29 pages in English translation.

2 Scope Preview

This standard specifies the general principles, terminology, system design, desulfurization system, electrical control and monitoring, occupational safety and health, civil construction and installation, commissioning and acceptance, operation and maintenance of wet

desulfurization engineering for high-sulfur flue gas in cement kilns. This document applies to the design, construction, acceptance, operation, and maintenance of new, renovated, and expanded wet desulfurization projects for high-sulfur flue gas in cement clinker production lines.

JC/T 60030-2025 falls under ICS 91.11, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 29 pages

Chinese original: about 43,486 characters

4 Related standards

Standards on related subjects:

JC/T 60033-2025 - Technical specifications for the application of water-based polymer spray waterproof coatings

JC/T 60032-2025 - Technical specifications for the application of autoclaved aerated concrete fireproof boards

JC/T 60031-2025 - Technical specification for application of sound insulation mortar

5 Classification and status

International classification (ICS): 91.11

Chinese Standard Classification (CCS): Q 92

Prefix JC/T: recommended standard.
