1 Foreword

JC/T 602-2009 was issued by Ministry of Industry and Information Technology on 4 December 2009 and has been in force since 1 June 2010.

It replaces the earlier edition JC/T 602-1995.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the terms and definitions of cement solidification early test methods, equipment, test chamber temperature and materials, operations, calculated results and test reports. There are two methods of cement paste and mortar method of this

standard test method to determine the principles of law prevail in cement paste. This standard applies to portland cement, other varieties of ordinary portland cement and cement specified in this standard.

JC/T 602-2009 falls under ICS 91.100.10, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

Adopted international standard: ASTM C451-2007, MOD; ASTM C359-2007, MOD

English translation: about 5 pages

Chinese original: about 7,733 characters

Supersedes the earlier edition JC/T 602-1995.

4 Related standards

Other editions:

JC/T 602-1995 (earlier edition)

Standards on related subjects:

GB/T 750-2024 - Test method for autoclave expansion of cement

GB/T 748-2023 - Sulfate resistance portland cement

JC/T 740-2006 - Portland Phosphorous Slag Cement

JC/T 421-2023 - Test method for abrasion resistance of cement mortar

JC/T 600-2010 - Limestone portand cement

JC/T 601-2009 - Methods for determining air content in cement mortar

5 Classification and status

International classification (ICS): 91.100.10

Chinese Standard Classification (CCS): Q 11

Prefix JC/T: recommended standard.
