1 Foreword

JC/T 782-2017 was issued by Ministry of Industry and Information Technology on 7 November 2017 and has been in force since 1 April 2018.

It replaces the earlier edition JC/T 782-2010.

2 Scope

This standard specifies the terms and definitions for measuring the visible light transmittance of glass fiber reinforced plastics, test principles, test equipment, test specimens, test environment, test procedures, test reports, etc. This standard is applicable to the measurement of visible light transmittance of glass fiber reinforced plastics. Visible light transmittance measurement of other diffusely reflective plastic plates can be performed by reference.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 7 pages

Chinese original: about 9,980 characters

Supersedes the earlier edition JC/T 782-2010.

4 Classification and status

International classification (ICS): 83.120

Chinese Standard Classification (CCS): Q 23

Prefix JC/T: recommended standard.
