## 1 Foreword

JC/T 866-2023 was issued by Ministry of Industry and Information Technology on 20 December 2023 and has been in force since 1 July 2024.

## 2 Scope

This standard specifies the method for determining the moisture content of glass raw materials. This standard is applicable to the determination of moisture content of siliceous raw materials for flat glass, feldspar, limestone, dolomite, Glauber's salt, soda ash, carbon powder and other powdered glass raw materials. Other glass raw materials can refer to this standard.

## 3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 5 pages

Chinese original: about 7,723 characters

## 4 Classification and status

International classification (ICS): 81.040.10

Chinese Standard Classification (CCS): Q 34

Prefix JC/T: recommended standard.
