1 Foreword

JC/T 891-2016 was issued by Ministry of Industry and Information Technology on 11 July 2016.

It replaces the earlier edition JC 891-2001.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the classification and marking, requirements, test methods, inspection rules and signs, packaging, transportation and storage of glass for high-pressure level gauges.

JC/T 891-2016 is filed under Chinese Standard Classification Q 37, in the field of building materials.

This catalogue holds 931 other JC/T standards without an ICS number.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Issued by: Ministry of Industry and Information Technology

https://chinastandards.org/standards/jc-t-891-2016

English translation: about 7 pages

Chinese original: about 10,117 characters

Supersedes the earlier edition JC 891-2001.

4 Related standards

Standards on related subjects:

GB/T 36403-2018 - Test methods of infrared transmittance for infrared optical glass-Fourier transform method

GB/T 36265-2018 - Infrared optical glass

GB 18045-2000 - Safety glass for railway rolling stock

JC/T 2920-2025 - Synthetic silica glass deposition tube for optical fiber preform

JC/T 2488-2018 - Industrial allyl glycidyl ether

JC/T 2393-2017 - UV-protective flat glass

5 Classification and status

Chinese Standard Classification (CCS): Q 37

Prefix JC/T: recommended standard.
