1 Foreword

JC/T 919-2003 was issued by Ministry of Industry and Information Technology on 20 September 2003 and has been in force since 1 December 2004.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies: cement industrial chain the technical requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to: cement industrial hoists and other machinery conveyor (ring chain, conveying roller chains

and bush chains) and cement industry wet process kiln with a chain (casting chain), similar conditions in other industries conditions may also refer to the use.

JC/T 919-2003 falls under ICS 91.110, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.

3 About this standard

Sector: Building Materials Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages (approximate)

Chinese original: about 9,911 characters

4 Related standards

Standards on related subjects:

JC/T 922-2017 - Crusher technical condition for cement industry

JC/T 917-2014 - Belt weighfeeder for buliding material industry

JC/T 916-2014 - Chute solids flow weighfeeder for building material industry

5 Classification and status

International classification (ICS): 91.110

Chinese Standard Classification (CCS): Q 92

Prefix JC/T: recommended standard.
