1 Foreword

JC/T 980-2018 was issued by Ministry of Industry and Information Technology on 22 October 2018 and has been in force since 1 April 2019.

It replaces the earlier edition JC/T 980-2005.

The JC/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the terms and definitions, classification, shape and specifications, code, marking, raw materials, requirements, test methods, inspection rules, signs and certificates, transportation, packaging and storage of fiber cement cable tubes and their

joints. This standard is applicable to the production of cement as cementing material, inorganic mineral fiber, organic synthetic fiber or plant fiber as the main reinforcing material produced by the process of copying (or slurry method), suitable for laying electricity, communication or other. The field protects the cable ducts of the wires or cables and their connectors.

JC/T 980-2018 falls under ICS 91.100.40, in the field of construction materials and building.

This catalogue holds 579 other JC/T standards in that field.

In this catalogue, JC/T standards carry edition years from 1973 to 2026.
