1 Foreword

JCJ/T 3-2017 was issued by Ministry of Industry and Information Technology on 12 April 2017 and has been in force since 1 October 2017.

It replaces the earlier edition JCJ 03-1990.

The JCJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard includes general rules, terminology, basic regulations, firing and drying equipment, grinding equipment, crushing equipment, conveying equipment, pneumatic and fluid conveying equipment, dust removal and packaging equipment, metering equipment, equipment commissioning and commissioning, etc. content.

JCJ/T 3-2017 is filed under Chinese Standard Classification P 74, in the field of engineering

construction.

JCJ/T 3-2017 is the only JCJ/T document in this catalogue.

Its issuing body, Ministry of Industry and Information Technology, has 20,054 other documents in this catalogue.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 65 pages

Chinese original: about 98,913 characters

Supersedes the earlier edition JCJ 03-1990.

4 Related standards

Standards on related subjects:

GB 50959-2013 - Load code of nonferrous metals engineering structures

GB 30485-2013 - Standard for pollution control on co-processing of solid wastes in cement kiln

GB 50717-2011 - Code for extractive metallurgy construction quality acceptance of mechanical equipment installation engineering of heavy non-ferrous metals

5 Classification and status

Chinese Standard Classification (CCS): P 74

Prefix JCJ/T: recommended standard.
