1 Foreword

JG/T 181-2005 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 11 November 2005.

The JG/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 18 pages in English translation.

2 Scope Preview

This standard specifies the construction of geographic information system software terminology and definitions, general requirements, data requirements, the basic functionality and system construction and implementation. This standard applies to construction projects (including project planning, engineering, surveying, engineering design, construction, engineering, maintenance and management processes) geographic information systems software development and applications, other geographic information systems software development and applications available for implementation.

JG/T 181-2005 falls under ICS 91.010.01, in the field of construction materials and building.

This catalogue holds 365 other JG/T standards in that field.

In this catalogue, JG/T standards carry edition years from 1992 to 2024.

3 About this standard

Sector: Building & Construction Industry Standard (Recommended)

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China

English translation: about 18 pages (approximate)

Chinese original: about 27,243 characters

4 Related standards

Standards on related subjects:

JGJ/T 231-2021 - Technical standard for safety of disk lock steel tubular scaffold in construction

GB 50300-2013 - Unified standard for constructional quality acceptance of building engineering

JGJ/T 496-2022 - Uniform coding and basic attribute data standards for buildings and buildings

JG/T 576-2021 - Mechanical fasteners for waterproofing membrane roofing

5 Classification and status

International classification (ICS): 91.010.01

Chinese Standard Classification (CCS): P 07

Prefix JG/T: recommended standard.
