Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard was proposed by the Standard Rating Research Institute of the Ministry of Housing and Urban-Rural Development.

This standard is under the jurisdiction of the Technical Committee for Standardization of Building Products and Components of the Ministry of Housing and Urban-Rural Development.

The organization responsible for drafting this standard. Timber Conservation Development Center, Fujian Dazhuang Bamboo Industry Technology Co., Ltd.

Participated in the drafting of this standard. Qingdao Jialijia New Material Co., Ltd., Guangdong Yaodonghua Decoration Material Technology Co., Ltd., Ganzhou Sentai Bamboo and Wood Co., Ltd., Inner Mongolia Qingyan Salix Industrial Engineering Technology Center Co., Ltd., Suzhou Epate Wood Co., Ltd., Guangxi Fenglin Wood Co., Ltd.

Group Co., Ltd., Shanghai Yihuang Wood Industry Co., Ltd., Guangzhou Tianzhixiang Decoration Materials Co., Ltd., Heshan Musen Wood Products Co., Ltd.

Division, Anhui Huijing Wooden House Construction Engineering Co., Ltd., Dongguan Yingsan Building Material Technology Co., Ltd., China Construction Xinli Construction Development Group Co., Ltd.

Company, Chongqing Foreign Construction (Group) Co., Ltd., Beijing Meihaojiayuan

Company, Zhejiang Haiyue Wood Structure Technology Co., Ltd., Shanghai Miang Wood Industry Co., Ltd., Chongqing Chenhe Construction Engineering Co., Ltd., National Timber and Wood product performance and quality supervision and inspection center, China Wood Protection Industry Association.

1 Scope

This standard specifies the terms and definitions, classification and marking, general requirements,, test methods, and inspection regulations for wooden hanging boards for architectural decoration.

Rules, signs, packaging, transportation and storage.

This standard applies to wooden hanging boards for indoor and outdoor decoration of buildings.

2 Normative references

The following documents are indispensable for the application of this document. For dated reference documents, only the dated version applies to this article Pieces. For undated reference documents, the latest version (including all amendments) is applicable to this document.

GB/T 1931 Method for determination of wood moisture content GB/T 2411 Use a hardness tester to determine the indentation hardness (Shore hardness) of plastics and hard rubber GB 8624 Classification of burning performance of building materials and products GB/T 15036.2-2018 Solid Wood Flooring Part 2: Inspection Method GB/T 16422.2 Plastic laboratory light source exposure test method Part 2: Xenon arc lamp GB/T 17657-2013 Test method for physical and chemical properties of wood-based panels and facing wood-based panels GB 18580 The limit of formaldehyde emission in wood-based panels and products for indoor decoration and refurbishment materials GB 18584 Limits of harmful substances in interior decoration materials and wooden furniture GB/T 19367-2009 Determination of the size of wood-based panels GB/T 24137-2009 Wood plastic decorative board GB/T 34722 Impregnated adhesive film paper veneer plywood and blockboard LY/T 1279 PVC film facing artificial board LY/T 1787-2008 Glulam non-structural use

3 Terms and definitions

The following terms and definitions apply to this document.

Wood-based siding

Wood or part of wood is used as a base material for building interior and exterior decoration.

Solid wood siding

Wooden hanging boards directly processed from solid wood sawn timber or jig saw.

Modified wood

Wood treated to improve the performance of wood.

Modified wood siding

Solid wood plywood made of modified wood as the base material.
