What this standard covers

This standard applies to all types of high-pressure relative dielectric loss and capacitance tester of the first test, follow-up test and use of the inspection. This procedure is not suitable for the verification of dielectric pressure testers or other dielectric loss testers with built-in high voltage test power supplies.

Document data

International classification (ICS): 17.220.

Chinese classification (CCS): A55.

Estimated length of the Chinese original: 17,116 words.
