What this standard covers

This standard stipulates the general requirements for the electronic disclosure of fund information, including requirements, announcements, classification standards and electronic process; it establishes the content realization method of electronic fund information disclosure. It stipulates a unified and standardized description method of fund information, which does not involve security mechanisms such as encryption and data integrity. This standard is only applicable to the electronic process of publicly disclosing fund information in accordance with laws, administrative regulations and the provisions of the China Securities Regulatory Commission for securities investment funds established through public offerings.
