1 Foreword

JR/T 0281-2024 was issued by People's Bank of China on 15 January 2024 and took effect the same day.

The JR/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies test environment planning, test environment preparation, test environment monitoring and inspection, test environment event and problem management, test environment change management, test environment backup and recovery for banking software test environment management (hereinafter referred to as test environment management), requirements for test environment configuration management, test environment security management, test environment resource management and test environment release management. This standard is suitable for guiding test environment operation and maintenance personnel (hereinafter referred to as operation and maintenance personnel), project managers, software designers, software developers, software testers and other related personnel to carry out work related to test environment management.

JR/T 0281-2024 falls under ICS 35.240.40, in the field of information technology.

This catalogue holds 93 other JR/T standards in that field.

In this catalogue, JR/T standards carry edition years from 1993 to 2026.

3 About this standard

Sector: Finance Industry Standard (Recommended)

Issued by: People's Bank of China

English translation: about 15 pages (approximate)
