What this standard covers

This standard specifies the basic principles for the coding of information disclosure documents of securities issuers, the coding method, the length and requirements of each coding unit, and the service requirements of the registration management agency. This standard applies to the coding and registration services of information disclosure documents of listed companies, companies whose corporate bonds are listed and traded, and companies whose stocks are traded on other national securities exchanges approved by the State Council.

Document data

International classification (ICS): 03.060.

Chinese classification (CCS): A11.
