1 Foreword

JS/T 302-2026 was issued by State Administration of Government Offices on 19 January 2026 and has been in force since 1 March 2026.

The JS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the equipment configuration, operation management, and safety management of electric vehicle charging infrastructure in public institutions. This standard applies to the configuration and operation of electric vehicle charging infrastructure by public institutions at all levels, including the configuration and operation of electric vehicle charging stations and distributed charging facilities.
