What this standard covers

This standard stipulates the conditions, basic requirements and general requirements for historical lighthouses, as well as requirements for routine maintenance, emergency reinforcement, repair, relocation, construction of protective facilities, collection and display. This standard applies to the protection of historical lighthouses in China's sea areas. The protection of other historical light ships, light piles, fog numbers, radio navigation facilities and other navigation marks can be used as reference.

Document data

International classification (ICS): 03.220.40.
