1 Foreword

JT/T 1239-2019 is issued by Ministry of Transport.

The JT/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements and test methods for anti-condensation ice coating materials for asphalt pavement. This standard applies to the production and use of anti-condensation ice coating materials for asphalt pavement with modified emulsified asphalt or organic silicon solution as the carrier.

JT/T 1239-2019 falls under ICS 93.080.99, in the field of civil engineering.

This catalogue holds 128 other JT/T standards in that field.

In this catalogue, JT/T standards carry edition years from 1991 to 2026.

3 About this standard

Sector: Highway & Transportation Industry Standard (Recommended)

Issued by: Ministry of Transport

English translation: about 8 pages (approximate)

Chinese original: about 12,198 characters
