1 Foreword

JT/T 1241-2019 is issued by Ministry of Transport.

The JT/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the composition and classification, general requirements, protection requirements, and technical requirements for guard doors, installation and identification of protective isolation facilities in urban bus and tram driving areas. This standard is applicable to the protective isolation facilities in the driving area of ??newly purchased urban buses and trams with standing areas for passengers over 6m. The installation of protective isolation facilities in the driving area of ??vehicles in use can be referred to as applicable.

JT/T 1241-2019 falls under ICS 43.080.20, in the field of road vehicle engineering.

This catalogue holds 38 other JT/T standards in that field.

In this catalogue, JT/T standards carry edition years from 1991 to 2026.

3 About this standard

Sector: Highway & Transportation Industry Standard (Recommended)

Issued by: Ministry of Transport

English translation: about 8 pages (approximate)

Chinese original: about 7,787 characters

4 Related standards
