1 Foreword

JT/T 1245-2019 is issued by Ministry of Transport.

The JT/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 69 pages in English translation.

2 Scope Preview

This standard specifies the use cases and design principles, content attributes, information models and main content and code sets of the electronic waybill for domestic multimodal transport of containers. This standard is applicable to the data exchange and information sharing among the relevant participants of domestic container multimodal transport and the design and development of the domestic multimodal transport information system.

JT/T 1245-2019 falls under ICS 35.240.60, in the field of information technology.

This catalogue holds 58 other JT/T standards in that field.

In this catalogue, JT/T standards carry edition years from 1991 to 2026.

3 About this standard

Sector: Highway & Transportation Industry Standard (Recommended)

Issued by: Ministry of Transport

English translation: about 69 pages (approximate)

Chinese original: about 103,186 characters
