1 Foreword

JT/T 1246-2019 is issued by Ministry of Transport.

The JT/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 11 pages in English translation.

2 Scope Preview

This standard specifies the overall design requirements, function and stiffness requirements of road and railway dual-use bridges. This standard applies to the design of new and reconstructed highway and railway bridges.

JT/T 1246-2019 falls under ICS 93.040; 03.220.01, in the field of civil engineering.

This catalogue holds 128 other JT/T standards in that field.

In this catalogue, JT/T standards carry edition years from 1991 to 2026.

3 About this standard

Sector: Highway & Transportation Industry Standard (Recommended)

Issued by: Ministry of Transport

English translation: about 11 pages (approximate)

Chinese original: about 17,124 characters

4 Related standards

Standards on related subjects:

JT/T 1574-2026 - Technical specification for e-Navigation maritime connectivity platform

JT/T 1573-2026 - Codes for land ports

JT/T 1567.2-2026 - Technical requirements for shore-based service of automatic identification system - Part 2: Operational control

5 Classification and status

International classification (ICS): 93.040; 03.220.01

Chinese Standard Classification (CCS): R 28

Prefix JT/T: recommended standard.
