1 Foreword

JT/T 1308-2020 was issued by Ministry of Transport on 28 April 2020 and has been in force since 1 July 2020.

The JT/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the product classification and marking, general requirements, technical requirements, test methods, inspection rules, and requirements for marking, packaging, transportation and storage of fire retardant coatings for highway engineering tunnels. This standard applies to the production, inspection and use of fire retardant coatings for the surface of concrete structures in highway engineering tunnels.

JT/T 1308-2020 falls under ICS 93.080.20, in the field of civil engineering.

This catalogue holds 128 other JT/T standards in that field.

In this catalogue, JT/T standards carry edition years from 1991 to 2026.

3 About this standard

Sector: Highway & Transportation Industry Standard (Recommended)

Issued by: Ministry of Transport

English translation: about 8 pages (approximate)

Chinese original: about 11,151 characters

4 Related standards

Standards on related subjects:

GB/T 23827-2021 - Road traffic sign plate and support

CJJ/T 135-2009 - Technical specification for pervious cement concrete pavement

JT/T 496-2004 - High-density polyethylene silicon duct for highway communication conduit

JT/T 1131.5-2025 - Steel deck pavement - Part 5: Polyurethane adhesive

JT/T 1496-2024 - Technical requirements for access control systems in highway tunnel construction
