### What this standard covers

This standard specifies the general and specific requirements for the provision of navigational documentation on inland waterway vessels. It applies to inland waterway vessels with a length of 20 meters or more and to river-sea direct-transit vessels navigating inland waters. It does not apply to military vessels, sports craft, official service vessels, fishing vessels, or yachts.

### Document data

Supersedes the earlier edition JT/T 419-2000.
