What this standard covers

This standard specifies the general steel container with paint and its supporting system's technical requirements and inspection rules. This standard applies to protective and decorative purpose containers commonly used steel surface coating and its supporting systems, including triple-coated outside the box and inside the two- film coating systems, as well as for the modified epoxy chassis chassis paint.

Document data

International classification (ICS): 55.180.10; 87.040.

Chinese classification (CCS): A85.

Estimated length of the Chinese original: 15,113 words.
